Norwalk Parking Authority and City Carting Team Up to Clean Up South Norwalk's Webster Lot:

New Consolidated Waste Compactor to Replace Individual Dumpsters

Norwalk, CT (August 4, 2010) - In an effort to enhance the surrounding areas where disposable materials are stored in South Norwalk's Webster Lot, The Norwalk Parking Authority has announced plans to install a consolidated waste compactor. The compactor is to be used by some of the businesses along the North Main Street corridor and will be located in the Webster lot, adjacent to the Bank of America building, The compactor will replace the dumpsters now in the white fenced area. City Carting will be operating the compactor and managing trash disposal in the surrounding area.

A new policy outlines how this change will affect businesses in the area:

- The Parking Authority will no longer allow individual dumpsters to be installed in the Webster lot without specific authorization from the NPA
- Dumpsters placed on any Parking Authority assigned property without prior authorization will be removed

"The Parking Authority's partnership with City Carting is a major step toward cleaning up the Webster Lot," says John Federici, Chairman of the Norwalk Parking Authority. "The new compactor will consolidate all the disposable materials from area businesses into one, aesthetically pleasing area."

The new compactor will be put into use in late September 2010.

The Norwalk Parking Authority is a financially self-sustaining organization responsible for the operation and maintenance of the municipal parking system in Norwalk. The Authority is committed to collaborating with community organizations while providing exceptional customer service to parking customers. The Norwalk Parking Authority can be reached at 203-831-9063 or at the web site at www.norwalkpark.org.
